English, Urdu & Hindi

Bilal Anwar
Software Engineer

Experienced iOS Developer with 6 years of experience and 2 years of Flutter expertise. Proficient in Swift and Flutter framework. Strong understanding of iOS SDKs, RESTful APIs, and software design patterns.Bachelor's degree in Computer Science. In-depth knowledge of UIKit, Design Patterns, Version Control, Core Data, CocoaTouch, Memory Management , Core Animation, and Apple Human Interface Guidelines. Track record of successful app launches, complex feature implementation, and app optimization. Effective communicator and collaborative team player.

Experience

May 2023 - Now

App in snap (Isl) | **Senior iOS Developer**

I am currently employed at Appinsnap in Islamabad, where I am dedicated to the development of the "JS Zindigi App" (App Store link). This app is tailored to simplify users' lives and elevate their lifestyle experience with features such as online spending, trading access, and free international payments.

Oct 2020- Feb 2023

Webotiks | **Senior iOS & Flutter Developer**

During my 2.5 years at Webotiks, I've completed multiple iOS projects using Swift and Flutter. One standout is Revaki, an app enabling convenient local product buying, collection, and delivery. Just order a Revaki, and we'll handle it. I also worked on Revaki Admin, built with Flutter, available at Revaki Admin. It provides business information access, including customer data, product details, sales, pricing, and technical support. Additionally, I contributed to the Etimad Online Grocery App, revolutionizing grocery shopping in Pakistan. I collaborated with renowned brands like Pie in the Sky, Pizza Hut, Drewel E-commerce App, Greeno, and more.

Aug 2018 - Sep 2020

Catalyst IT Solution | **Senior iOS Developer**

During my 2 years of experience at Catalyst, I have been working on a stock exchange product called iTick. You can find it on the App Store at this link: AKD iTick. In addition, I have successfully provided the app to multiple clients, including JSBL, Taurus, Bank AKD, AHLE, and several others.

Feb 2016 - July 2018

Lutebox and Saltech Solution | **iOS Developer**

I began my career as a Junior iOS Developer at Saltech Solution from February 2016 to August 2017, where I completed one project. I then joined Lutebox from September 2017 to July 2018, where I successfully completed three projects.
